The screenshot shows the WSIS Prizes 2016 website. The header features the WSIS Prizes logo, the dates "2-6 MAY 2016", and the location "Geneva Switzerland". A navigation bar includes links for Home, About, Timeline, Nominated Projects, Vote, Prize Ceremony, Categories, Rules and Guidelines, and Winners Corner. The main section is titled "VOTE" and "PHASE III: VOTING PHASE", with the dates "6 February 2016 – 10 March 2016". A paragraph explains that Phase III provides an online mechanism for all WSIS stakeholders to participate in the contest. Below this, a green banner reads "2016 VOTING PHASE OPEN February 6 – March 10". A three-step process is outlined: 1. Carefully read the RULES AND GUIDELINES (with a book icon), 2. View all NOMINATED PROJECTS (with a magnifying glass icon), and 3. Vote for your favorite project in each Action Line (with a hand icon). A blue "Vote" button is positioned below the steps. At the bottom, a paragraph states the deadline for completing votes is 10 March 2016 (23:00 Geneva time) and that the three most voted projects will be selected based on the appreciation/voting for project descriptions by WSIS stakeholders representing WSIS organizations. The rules for voting should be strictly respected.

2016 VOTING PHASE OPEN
February 6 – March 10

1
Carefully read the **RULES AND GUIDELINES**.

2
View all **NOMINATED PROJECTS**.

3
Vote for your favorite project in each Action Line.

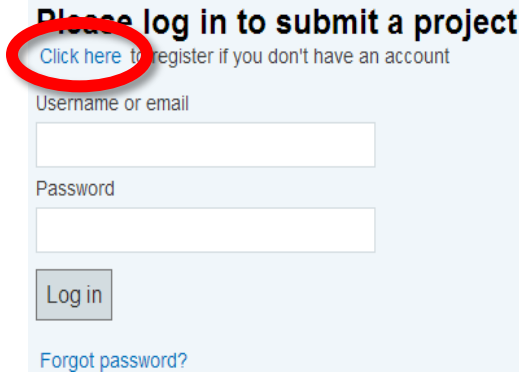

Vote

The deadline for completing votes is **10 March 2016** (23:00 Geneva time). The three most voted projects will be selected based on the appreciation/voting for project descriptions by WSIS stakeholders representing WSIS organizations. The rules for voting should be strictly respected.

CATEGORY 1																	
CL. THE ROLE OF GOVERNMENTS AND ALL STAKEHOLDERS IN THE PROMOTION OF ICTS FOR DEVELOPMENT (22 projects)																	

Digital Agenda Uruguay (Uruguay's digital policy)

Sustained and continuous effort through several versions: 2007-2008, 2008-2010, 2011-2015. It's not a government's plan, is a multistakeholder commitment. It's not a technology plan, is a social inclusion agenda. Highlights: -Regional leader in ICT access; outstanding plans offered by government such as 1GB broadband, no monthly fee -First country where all public schools students have their own PC; reducing PC access gap between lower-income and upper-income households to only 10%. No child should walk more than 300mtrs from home to access Internet -Main software exporter per capita -First country with 100% livestock traceability
