It is a pleasure for the Latin American and Caribbean Network of National Contact Points (LAC NCP Network) to greet you and share with you the newsletter N° 29, the second edition of 2024.

Since the creation of the Network in 2017, our goal is to democratize and bring information closer to researchers, universities, companies, civil society organizations andany type of institution that tends to promote science, technology and innovation in the Latin American and Caribbean region (LAC).

In this line, we work to strengthen the capacities of the National Contact Points of Latin America and the Caribbean (NCP) so that all of them are in a better position todisseminate, inform and assist researchers, public and private organizations, civil society associations, encouraging their participation in the European Union's framework programs.

The team is available to energize the network, to increase the participation of the region in the Horizon Europe Program and to face the challenges ahead.

LAC NCP LAC Network team:

- Claudia Romano Núñez - Coordinator RED LAC NCP Linkedin
- Alejandro Quinteros Linkedin.
- Nadia Stratta Linkedin
- Assistant: Gimena Pérez

Furthermore, it is made up of all the NCPs in the region, whom we would like to thank especially for their work.

We invite you to follow us on our social networks:

LAC NCP Network presents report: "Latin America and the Caribbean in the European Union Framework Programmes for Science, Technology and Innovation. Balances and Perspectives".

Fuente: Elaboración Red LAC NCP en base a datos del Funding & Tenders (julio 2023).

A progressive level of participation can be seen; the increase in the number of agreements signed, the increase in the number of institutions involved, facts that are extending and democratising research and development opportunities in Latin America and the Caribbean.

The launch was attended by more than 200 NCPs, researchers and representatives of public and private universities, ministries and institutions of Science, Technology and Innovation in the region.

The report was led by Lucía Pérez, AUCI technician. It reports on the progressive increase in the level of participation, the signing of agreements and participating institutions, the strategies outlined, the alliances and actions to improve the performance of learning and recognise the challenges to continue consolidating their participation in the current edition and in future programmes.

In this regard, the work of promotion and support carried out by the NCPs in each of the LAC countries, the articulation, coordination and synergy actions between countries, organisations, which allows progress to be made in access to instruments and insertion in networks of excellence.

Likewise, the work carried out by key projects in the region such as Euraxess, MSCA - NET, NET4mobility and the creation of thematic networks in specific areas of the framework programmes (HN3.0, Net4society, Serenproject, Idel-ist, care4 bio, NCPwidera net), have been fundamental for the construction of progress actions.

12th Meeting of the Intra-CELAC Working Group on Research Infrastructures

The meeting was held on 3 April 2024 online and it was attended by delegates from 15 countries from the Latin American region, the Group Coordinator, Fernando Amestoy and the Technical Secretary, Claudia Romano.

The objective was to prepare the meeting of the EU-CELAC Working Group on Research Infrastructures in Lima on 7-8 May 2024 and to seek synergies with the ResInfra PLUS project. Opening remarks were made by the Coordinator of the group, followed by a presentation of the participants. The Technical Secretary then presented the key points of the next meeting.

The discussion focused on the future of the region in terms of international cooperation in RIs. The ESFRI system used in Europe was briefly presented, and ideas were exchanged on how to implement a LACFRI with regional hubs in the following themes: biodiversity and climate change, food, health, energy, and emerging technologies. In this regard, delegates noted:

- The relevance of designing a regional agenda containing the general guidelines for international cooperation between research infrastructures, with a structure containing 5 working groups according to the thematic hubs proposed, addressing the challenges that this implies.
- The need to identify specific topics within the thematic hubs as a starting point.
- The importance of having political support to develop this type of action.

At the same time, the activities to be carried out in the framework of the work packages 2.3 and 4.1 of the ResInfra PLUS Project were presented, in which policy makers, infrastructure managers and researchers, including the delegates of the present group, will be able to participate and which will serve as a space for articulation between the actors in order to be able to draw up the regional agenda. These working instances, which will include different countries and actors of the region, could be an excellent space to define a specific roadmap for each of the topics, which will be submitted to the consideration of the delegates.

EU-LAC Foundation: Joint Research and Innovation Initiative

Organised by the International Foundation European Union, Latin America and the Caribbean (EU-LAC Foundation), it brought together representatives of public institutions, scientific associations and networks from Europe, Latin America and the Caribbean.

Its objective was to make visible the role of higher education and the university sector in the generation of skills and knowledge required to offer solutions to the multiple crises of our times and the processes of social, economic and environmental transition, to provide a space for dialogue between actors that promote cooperation between LAC and the EU in Higher Education, Science, Technology and Innovation to identify shared priorities, address the "blind spots" and gaps that should be overcome to link processes and initiatives underway, explore possibilities for cooperation and create synergies that enhance the impact of the efforts generated.

It was structured around five sessions: I) Higher education and mobilities that promote research in the European, Latin American and Caribbean space; II) Universities in Europe, LAC and their cooperation in research infrastructures; III) Research agendas and networks focused on global challenges (green transition, health, digitalisation) in European, Latin American and Caribbean universities; IV) Innovation incubators in European, Latin American and Caribbean universities and their links with productive actors and the community; V) Opportunities and challenges in the articulation between actors and initiatives that promote cooperation between LAC and the EU in the field of Higher Education, Science, Technology and Innovation.

The work being carried out by the LAC NCP Network in the region, the role of NCPs and the importance of continuing to appoint them in the 18 areas of the HE programme, the work of the EU-CELAC Working Group on Research Infrastructures, the ResInfra and ResInfra PLUS project, and the Erasmus+ programme in the region were highlighted.

Panama strengthens participation in Horizon Europe and other international cooperation opportunities

The "International Cooperation Workshop - Horizon Europe Programme" was held in Panama City from 13 to 15 March. The activity was co-organised by the National Secretariat of Science and Technology (Senacyt) and AUCI- LAC NCP Network, with the support of the Spanish National Research Council (CSIC), the Spanish Foundation for Science and Technology (Fecyt) and the Madri+d Foundation for Knowledge.

It was attended by 60 researchers and representatives from public and private universities, ministries, science, technology and innovation institutions, civil society and NCPs from different regions of Panama. The meeting, which combined theoretical and practical aspects, aimed to foster intersectoral, interdisciplinary and international collaboration in both research and innovation in the framework of HE and other European opportunities.

The inaugural round table was led by Omar López Alfano, technical secretary of the National Research System (SNI) - Senacyt; Izabela Matusz, ambassador of the European Union in Panama; Claudia Romano, manager of AUCI and coordinator of the LAC NCP Network; and Anabella Vásquez, director of International Cooperation of Senacyt.

The presentations were made by Jesús Rojo from Madrid+d; Almudena Carrero from CSIC; and Sabina Guaylupo from FECYT. They explained the opportunities offered by CSIC, the Enterprise European Network (EEN) and FECYT to LAC countries and presented the EU-CELAC policy dialogue on research infrastructures, as well as the MSCA and Horizon Europe guides and an introduction to the Ibero-American Office.

Furthermore, Alejandro Quinteros and Nadia Stratta from AUCI presented the statistics of Panama's participation in the Horizon Europe programme, the structure of the programme, the forms of participation, how to use the templates and what are the evaluation criteria, the Funding & Tenders portal, and the thematic networks.

The annual strategic planning of the NCPs and a practical workshop on how to apply to the programme by areas based on real calls for proposals were also carried out.

During the final remarks, the Deputy Minister of Multilateral Affairs and Cooperation of the Ministry of Foreign Affairs of Panama, Yil Otero, was present.

Science diplomacy for Colombia: perspectives and multi-sectoral conversations for the solution of global challenges

On 11 April 2024, the Second National Meeting on the Internationalisation of Science, Technology and Innovation -CTeI- "CTeI Global 2024" was held, co-organised with the Universidad El Bosque, the National Association of Universities (ASCUN), in alliance with the Universidad Nacional de Colombia-Sede Bogotá, the Universidad de América and the Universidad Pedagógica Nacional.

The guest country was Argentina, with the participation of international speakers such as: Nevia Vera, who gave the keynote lecture "Scientific Diplomacy for the Global South" and Maximiliano Sainz, an expert in international cooperation for the CTeI, who gave the talk "Identification of External Funding for Research".

The event was attended by 105 participants from 48 institutions from various sectors: academia, national and departmental government and the productive sector. The German Academic Exchange Service of Colombia (DAAD) and the German embassy also participated in the event.

The exchange of international experiences and practices in relation to Latin America took place, the parallels of which will serve as a frame of reference for the construction of national strategies. Finally, workshops were held to establish specific competencies for the participants. The topics addressed were: 1) "Erasmus +: How to enhance research management through partnerships with Europe"; 2) "Horizon Europe Calls: Introduction to the calls and deepening of the Staff Exchange Call" and; 3) "Management of research projects: challenges, roles and responsibilities".

From this event, the foundations and goals were laid for a third Global CTeI that will continue to bet on joint work for the generation of inter-institutional strategies linked to foreign policy.

Training on the Horizon Europe programme to the Costa Rican Promoter of Innovation and Research.

On 6 March, the NCP coordinator of Costa Rica Eliana Ulate Brenes provided training on the Horizon Europe Programme to the Costa Rican Promoter of Innovation and Research, with the aim of explaining how the programme works, exploring possibilities for participation in calls, incorporation of the institution and promotion of the calls.

The General Manager and officials from all departments of the institution participated in this event.

Exchange of Experiences among Caribbean NCPs

On 2 April, a virtual exchange of experiences was organised between the NCP coordinator of Costa Rica and the NCP coordinator of Guatemala, and SENACYT cooperation officials to see key elements in order to strengthen the NCPS network in Guatemala, as well as to review aspects of the Horizon Europe Programme.

Panama: Senacyt encourages participation in scientific calls of the Horizon Europe Programme

Senacyt, through its International Cooperation Office, is working to disseminate and encourage the participation of the Panamanian scientific community in international calls for grants and funding for collaborative EU HE research projects.

The work strategy has consisted of the development of workshops, training and tours to raise awareness of the funding opportunities available to the Programme.

In April, a tour of HE opportunities was held in inland areas of the country such as Chiriquí, Azuero and Coclé. An average of 70 people attended, including researchers and actors in the Panamanian scientific field.

As a direct result of this promotion and dissemination management, Panama has gone from having two NCPs in 2019 to having 31 candidates for NCPs in different areas of the HE programme.

Senacyt's strategy will advance in the following months with the training of all NCP candidates and with the dissemination of the calls that will be launched by the HE programme.

Opening of Marie Sklodowska-Curie Actions 2024

The first regional workshop on Doctoral Networks and Postdoctoral Fellowships opportunities in the framework of the Marie Sklodowska-Curie Actions was held virtually on 29 April. It was co-organised by the LAC NCP Network, the Fundación para el Conocimiento Madri+d and the MSCA-NET project. It was attended by more than 280 researchers, representatives of universities and science and technology institutions from all over Latin America and the Caribbean.

Jesús Rojo, - Head of Unit - European Programmes & Technology Transfer, presented the general guidelines of the actions, as well as practical examples. Lucía Campanella, Marie Skłodowska-Curie postdoctoral researcher with the project "The Anarchist Translation Flows and World Literature Project" (ARGOT), gave her testimony, adding tips and recommendations for researchers interested in applying.

At the end of the workshop there was a space for questions to the speakers.

Type of action	Opening	Deadline
Posdoctoral Fellowships	23 of April	11 of September
Doctoral Networks	29 of May	27 of November
Staff Exchanges	19 of September	5 of February, 2025

Opportunities under MSCA 2024

- Poland

The Institute of Fundamental Technological Research of the Polish Academy of Sciences is looking for PhD researchers to prepare proposals for the MSCA Postdoctoral Fellowship 2024 call.

You can find the offer and the list of supervisors at the following link https://www.ippt.pan.pl/en/?view=article&id=1151&catid=59

- Belgium

Do you want to improve your career prospects with an MSCA Postdoctoral Fellowship and train at a leading European university?

If you have the support of a supervisor at Ghent University, you can apply for the MSCA-PF 2024 call.

For more information on MSCA postdoctoral fellowships and the conditions for applying, please consult their website https://www.ugent.be/en/research/funding/eu-int/msca-pf.htm via email EU-team@ugent.be.

- Spain

The University of Navarra (UNAV) is a private, non-profit university founded in 1952 and based in Pamplona, Spain. It offers 56 official degrees and manages more than 90 postgraduate programmes (including 20 doctoral programmes and 42 master's programmes) through 10 schools, two graduate schools, the IESE Business School and its 5 Integrated Research Centres: CCUN (Centro Oncológico Clínica Universidad de Navarra), BIOMA (Instituto de Biodiversidad y Medio Ambiente) and DATAI (Instituto de Ciencia de Datos e Inteligencia Artificial), ICS (INSTITUTO DE CULTURA Y SOCIEDAD) and CIN (Centro de Investigación en Nutrición).

It has a solid track record of participation in European Research Programmes. The university has participated in 126 European projects from the 4th Framework Programme to Horizon Europe, including the LIFE, ERASMUS+ and INTERREG programmes, of which 22 projects were coordinated by the university. The University also has extensive experience in MSCA and ERC grants with more than 26 grants signed.

UNAV has been awarded the HR Excellence in Research (HRS4R) seal of quality which guarantees the application of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

List of offers in EURAXESS https://euraxess.ec.europa.eu/jobs/hosting/search?f%5B0%5D=keywords%3Aunav

- Croatia

Interested in applying for a Marie Skłodowska-Curie Actions (MSCA) postdoctoral fellowship? Explore expressions of interest from our supervisors, as well as other opportunities to collaborate with the University of Split as a host institution.

More information: https://unist.hr/research-opportunities/18348

- Malta

The Malta Council for Science and Technology (MCST) is now accepting proposals under the Postdoctoral Training Fellowship Programme for Incoming Postdoctoral Trainees in Malta (PF2MT). The programme covers travel and accommodation costs for experienced researchers who wish to submit a proposal with a Maltese host entity (beneficiary) for the MSCA Postdoctoral Fellowships call, the deadline for which is 11 September 2024 (MSCA-2024 -PF).

The support will be in the form of a lump sum grant and is for the participation of the researchers in the MSCA Postdoctoral Fellowship training to be held on 26-27 June 2024 in Malta. Researchers, of any nationality and age, who meet the eligibility and mobility conditions, can apply through this programme.

Applicants are invited to apply by 12.00 noon (CET) on 7 June 2024. The scanned, signed and dated application form, as well as an updated CV of the applicant, should be sent by email to horizon.malta@gov.mt and cc lili.vasileva@gov.mt with "PF2MT 2024" as subject no later than midday (CET) on 7 June 2024.

https://mcst.gov.mt/mcst-news/pf2mt-msca-pf-2024-malta-welcomes/

- MSCA-EU Doctoral Network "Understanding Latin American Challenges in the 21st Century" (LAC-EU).

LAC EU | Understanding Latin American Challenges in the 21st Century

Funded in the framework of Horizon Europe - Marie Skłodowska-Curie Actions - European Union Doctoral Networks, the LAC-EU Doctoral Network will establish a novel, comprehensive and interdisciplinary framework for understanding LAC and its relationship with the EU, fostering respectful and non-Eurocentric research. It will enable a better understanding of current challenges in Latin American governance and support sustainable, equitable and successful EU-LAC relations.

LAC-EU is a four-year integrated doctoral network, offering top-level interdisciplinary research and training in social and political sciences, law and humanities, as well as

policy-relevant research exchanges and secondments in the EU and LAC. Research topics include the rise of populism, democracy, gender rights, trade, migration, health, global cities, sustainability and green finance, and cultural learning.

The EU-LAC PhD programme comprises an interdisciplinary and multi-sectoral network composed of seven leading higher education institutions and key and highly relevant policy and civil society partners from a variety of European and LAC countries. It offers an exceptional combination of academic and research-related training and transferable skills to provide scientific excellence, occupational mobility and preparation for lifelong and policy-relevant learning for a new generation of researchers.

Instruct-ERIC is launching its fourth international call for global structural biology researchers.

It is open to staff from all Instruct Centres and institutions that have Memoranda of Understanding (MoU) with Instruct-ERIC or are in the process of signing an agreement in the next 12 months. The call aims to foster initial interactions that could develop into stronger collaborations as exchanges progress.

This is Instruct's first international call for structural biology researchers to visit Latin American institutions, and vice versa.

Applications will open on 15 May 2024. The call will close on 2 August 2024.

Successful projects will receive up to €5000 to cover travel, accommodation and other direct costs of their exchange.

For more information on the range of services available at Instruct Centres through this call, please visit the Instruct catalogue. To apply, you must belong to one of the institutions listed below and upload an online application. If your institution is not listed below, but you are interested in applying for the call, please contact support@instruct-eric.org.

Researchers from the following institutions are eligible:

- All Instruct facilities
- Latin America
    - Institute of Molecular and Cellular Biology of Rosario (IBR, Argentina)
    - Instituto de Investigaciones Bioquímicas de La Plata (INIBIOLP, Argentina)
    - Institute of Biological Chemistry and Physicochemistry (IQUIFIB, Argentina)
    - University of Buenos Aires (Argentina)
    - University of San Martín (UNSAM, Argentina)
    - Leloir Institute Foundation (Argentina)
    - The University of Sao Paulo (USP, Brazil)
    - Centre for Structural Biology (CBE, Venezuela)
    - Pasteur Institute of Montevideo (Uruguay)
    - University of the Republic (UdelaR, Uruguay)
    - Brazilian Centre for Research in Energy and Materials (CNPEM, Brazil)

Survey on the interconnectivity of the digital ecosystem in Latin America and the Caribbean and the EU.

The SPIDER project conducts an online survey on the interconnectivity of the digital ecosystem in Europe and Latin America and the Caribbean (LAC), with the objective of assessing the potential of the BELLA Infrastructure for cooperation between the two continents, by providing direct connectivity between them and high quality, high capacity, long-term interconnectivity to their research and education networks (NRENs) and to universities, research and innovation centres, observatories and other members of these networks.

The project started to be implemented at the end of 2023 for the maximum exploitation of the potential of the connectivity generated from the BELLA programme and the implementation of the results of the dialogues in the field of digitisation. With the leadership of RedCLARA and GEANT and funding from the European Union (EU), BELLA deployed the first submarine fibre optic cable directly connecting LAC to Europe and a terrestrial backbone connecting Ecuador, Chile, Brazil and Argentina. The BELLA II project, which is currently being implemented, aims to connect as many countries in Latin America and the Caribbean as possible to this network and to consolidate a regional digital ecosystem, including Uruguay.

It is hoped that the contributions collected confidentially from the survey will serve as a guide to foster cooperation in digital transformation and research and innovation (R&I) between Europe and LAC.

The survey will be open until 15 May in English and Spanish:

- English https://www.surveymonkey.com/r/7PZKVRD?lang=en
- Spanish https://www.surveymonkey.com/r/7PZKVRD?lang=es

Calls

Cluster 1- Health

Open for submission:

1. *Implementation research for the management of multiple long-term conditions in the context of non-communicable diseases (Global Alliance for Chronic Diseases - GACD)*

Opening: April 25, 2024 Deadline: November 26, 2024

Type of action: RIA Deadline: € 20.000.000

https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-hlth-2024-disease-13-01

2. *Pre-commercial procurement of environmentally sound health and care systems Bringing together the national level with committed regional and local levels (multilevel governance)*

Opening: 25 April, 2024 Deadline: 18 September, 2024

Type of action: CSA Budget: € 4.000.000

https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-miss-2024-clima-01-02

Cluster 3- Civil Security for Society

Forthcoming:

1. *Harmonised / standardised protocols for the implementation of warning and impact forecasting systems and for transnational emergency management in the fields of high impact meteorological / climatic and geological disasters.*

Opening: 27 June, 2024 Deadline: 20 November, 2024
Type of action: IA Budget: € 6.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl3-2024-drs-01-03

2. *High-tech capabilities to respond to crises and recover from natural or technological disasters (NaTech)*

Opening: 27 June, 2024 Deadline: 20 November, 2024
Tipo de acción: RIA Budget: € 4.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl3-2024-drs-01-04

3. *Sustainable and cost-effective technologies and crisis management strategies for large-scale protection of population and infrastructure after a nuclear explosion or incident at a nuclear facility*

Opening: 27 June, 2024 Deadline: 20 November, 2024
Type of action: RIA Budget: € 6.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl3-2024-drs-01-05

4. *Integrated risk-based border control that mitigates public safety risk, reduces false positives and enhances privacy.*

Opening: 27 June, 2024 Deadline: 20 November, 2024
Type of action: IA Deadline: € 5.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl3-2024-bm-01-04

5. *Prevention, detection, response and mitigation of biological and chemical threats to agricultural production, forestry and food processing, distribution and consumption.*

Open: 27 June, 2024 Deadline: 20 November, 2024
Type of action: RIA Deadline: € 8.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl3-2024-drs-01-01

6. *Radicalisation and gender*

Open: 27 June, 2024 Deadline: 20 November, 2024
Type of action: RIA Budget: € 3.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl3-2024-fct-01-04

7. *Bringing together the national level with committed regional and local levels (multilevel governance)*

Open: 24 April, 2024 Deadline: 18 September, 2024
Type of action: CSA Budget: € 4.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-miss-2024-clima-01-02

Cluster 4: Digital, Industry and Spaceo

Forthcoming:

1. *Support for transnational activities of National Contact Points in the thematic areas of Digital, Industry and Space*

Opening: 3 April, 2024 Deadline: 10 September, 2024
Type of action: CSA Budget: € 5.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl4-2024-human-02-34

2. *Facilitating participation in the global development of ICT standardisation (CSA)*

Open: 23 April, 2024 Deadline: 18 September, 2024
Type of action: CSA Budget: € 6.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl4-2024-human-03-04

Cluster 5- Climate, energy and mobility

Forthcoming:

1. *Reducing the size and weight of batteries and battery system packaging, integrating lightweight and functional materials, innovative thermal management and a safe and sustainable approach through design (Batt4EU Partnership).*

Open: 7 May, 2024 Deadline: 5 September, 2024
Type of action: IA Budget: € 16.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d2-02-03

2. *Development of smart energy-driven integrated biorefinery concepts for the co-production of advanced biofuels, biochemicals and biomaterials.*

Opening: 17 September, 2024 Deadline: 21 January, 2025
Type of action: RIA Budget: € 7.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d3-02-03

3. *Robust knowledge and skills transfer for key EU-ECM deployment and implementation pathways (CCAM Partnership)*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: CSA Budget: € 4.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-05

4. *Optimise the multimodal network and traffic management, taking advantage of infrastructure, passenger mobility and freight data.*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: RIA Budget: € 10.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-06

5. *Scenario-based safety assurance of CCAM and related HMI in a dynamically evolving transport system (CCAM Partnership)*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: RIA Budget: € 14.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-02

6. *Strong transfer of knowledge and know-how for key EU-ECM deployment and implementation pathways (CCAM Partnership)*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: CSA Budget: € 4.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-05

7. *Effects of disruptive changes in transport: towards resilient, safe and energy-efficient mobility*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: RIA Budget: € 7.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-11

8. *AI for advanced and collective perception and decision making for CCAM applications (CCAM Partnership)*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: RIA Budget:: € 10.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-04

9. *Centralised, reliable, cyber-secure and upgradeable in-vehicle electronic control architectures for CCAMs connected to the Cloud Edge Continuum*

Opening: 7 May, 2024 Deadline: 5 September, 2024
Type of action: RIA Budget:: € 12.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl5-2024-d6-01-01

Cluster 6- Food, bioeconomy, natural resources, agriculture and environment

Forthcoming:

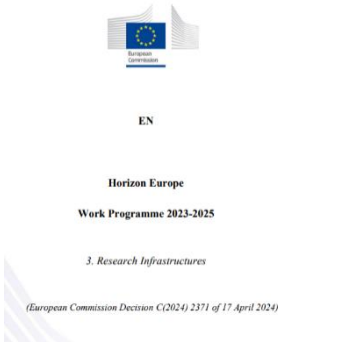

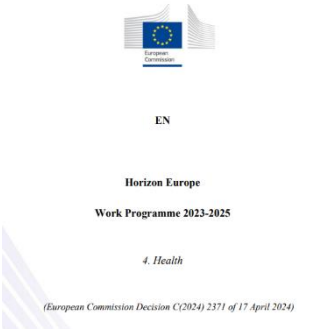

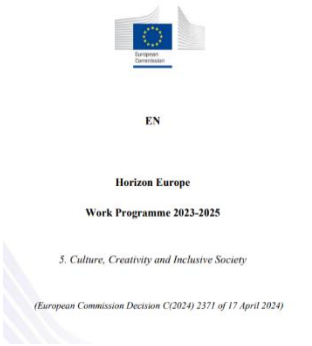

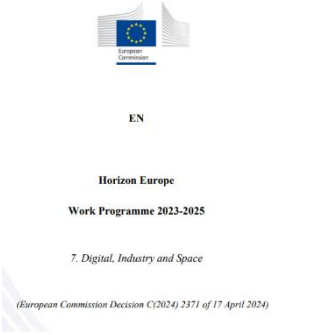

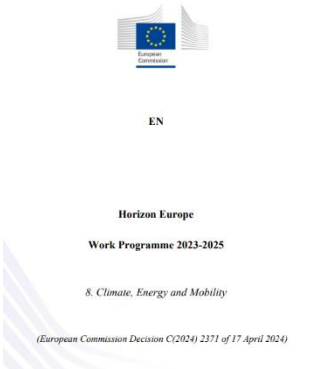

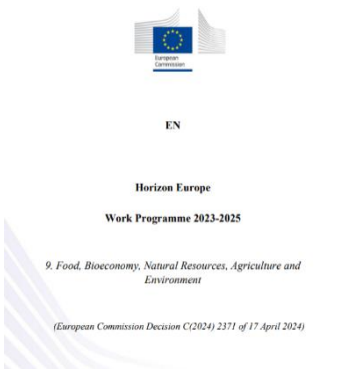

1. *Focus on the priority plant pest: the budworm (Spodoptera frugiperda)*

Opening: 8 May, 2024 Deadline: 24 September, 2024
Type of action: RIA Budget: € 5.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl6-2024-farm2fork-03-1

2. *New knowledge and innovations for climate-smart agriculture: connecting research stations*

Opening: 8 May, 2024 Deadline: 24 September, 2024
Type of action: RIA Budget: € 12.000.000
https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/horizon-cl6-2024-climate-02-1

Your Guide to Intellectual property Management in Horizon Europe

The purpose of this guide is to spotlight critical aspects and novelties related to Intellectual Property (IP) management in the context of collaborative research and innovation projects funded under the European Union's current Framework Programme for Research and Innovation "Horizon Europe" (2021-2027). It does not claim to be exhaustive. The IP rules of Horizon Europe are built to a large extent on the regulations established by the previous Framework Programme "Horizon2020". Therefore, this guide complements the existing guide "Your Guide to IP in Horizon 2020".
