

Mobility opportunities for Researchers Innovative Training Networks

- Are you interested in joining a network of organisations to develop a state-of-the-art research and training programme for early-staged researchers?
- Do you wish to learn more about EU funding opportunities for enhancing researchers' career prospects through developing their skills in entrepreneurship, creativity and innovation?

The European Commission's Marie Skłodowska-Curie Actions (MSCA) has diversified funding schemes suiting different level of expertise and institutional needs. This 1-hour webinar will introduce MSCA actions with a specific focus on Innovative Training Networks (ITN). Any open questions that remain will then be addressed in a subsequent interactive Q&A session. Space is limited, and attendance is on a first come, first served basis. This webinar is entirely for free.

About Innovative Training Networks

Innovative Training Networks bring together universities, research centers and companies from different countries worldwide to train a new generation of researchers. The funding boosts scientific excellence and business innovation, and enhances researchers' career prospects through developing their skills in entrepreneurship, creativity and innovation.

The webinar is held in English.

Content

At the webinar we will go through the Innovative Training Networks instrument, provide you also with tips for writing your application and present experiences from previous Innovative Training Networks calls. After the webinar you will be able to understand the rules and requirements of Innovative Training Networks and you will be able to address the different sections in the proposal template.

Target group

Universities, Research Centers, Researchers, support/advisory staff, companies and others with interest in the Innovative Training Networks instrument.

Date: 6th November 2019

Time: 2 p.m. CET
