IMPORTACIONES Y EXPORTACIONES DE PRODUCTOS HORTIFRUTICOLAS Años 1998 y 1999

Boletín - N° 5

Mayo, 2000

PRESENTACION

Este Boletín - que tendrá una frecuencia cuatrimestral - constituye el quinto número de la publicación con datos de *importaciones y exportaciones de productos hortifrutícolas*. El mismo tiene como objetivo dar mayor difusión al flujo comercial de estos productos con el exterior. En esta oportunidad se presenta información sobre los volúmenes importados y exportados para el período *setiembre-diciembre de 1999 y los acumulados para 1998 y 1999*.

La información es elaborada y procesada por la Oficina Adjunta de Contralor Fitosanitario en base al registro e inspección fitosanitaria en todos los pasos de frontera del país.

Este trabajo es una nueva muestra del proceso de reestructuración del Sistema de Estadísticas Agropecuarias del MGAP, tendiente a generar un flujo creciente de información oportuna y confiable, proveniente de diversas fuentes.

La Dirección de Estadísticas Agropecuarias (DIEA) en su rol de coordinación de ese proceso, ha colaborado en la definición del contenido y la estructura de este Boletín y su edición⁽¹⁾.

(1) La edición de los cuadros fue realizada por Carlos Ramos Pino de DIEA.
