**Short description of your institution/company:**

Sproule is a global energy consulting and advisory firm that helps companies, investors and governments minimize risk and optimize business decisions. Our services help clients create value by increasing shareholder confidence through trusted and independent reserves reports, optimizing operational performance and field development strategies, and strategically advising on M&A transactions and evolving energy markets.

<b>Your institution provides</b> (please select all that apply)	products	<input type="checkbox"/>	services	<input checked="" type="checkbox"/>

**Short description of your relevant market, i.e. your relevant product/service and geographic market:**

Sproule has over 70 years of experience in reserves evaluation and certification, strategic advisory services, integrated reservoir studies, and operational expertise. We have successfully completed more than 20,000 projects, and our client portfolio includes over 4,000 companies worldwide, with projects completed in more than 90 countries. Today:

- We provide strategic advisory services to governments and companies in the energy sector to support their transition to sustainable energy.
- We conduct prefeasibility evaluations for investments in energy projects.
- We operate more than 150 MWth geothermal heating capacity in the Netherlands.

- We carry out over 300 reserves certification projects annually.
- We offer advisory services for the purchase and sale of oil and gas assets globally.
- We evaluate CCS and CCUS (Carbon Capture and Storage, and Carbon Capture, Utilization, and Storage) projects.
- We operate more than 15,000 BPD.
- We conduct evaluation projects for the potential of lithium, helium, and hydrogen.
