**Short description of your institution/company:**

Vivestar S.A. is a professional services company that places its emphasis on the implementation and execution of projects, of multidisciplinary conformation and open organization, oriented to long-term sustainable results, which seeks to contribute to business development in all its stages.

We organize ourselves in an innovative way, attending to the particularities of each project and implementation team, so that creativity arises, knowledge flows and experience guides us to produce the best results.

We have an important network of members and associate members in various areas, sectors and countries, experienced professionals who share the enthusiasm of doing business in a different way, aware that the success of our clients is our own.

Doing Intelligence, applying Ingenuity and developing Engineering, we partner with our clients in their Innovation and Internationalisation challenges, so that their ventures evolve and reach their maximum potential.

<b>Your institution provides</b> (please select all that apply)	<i>products</i>		<i>services</i>	X

**Short description of your relevant market, i.e. your relevant product/service and geographic market:**

We place our focus on business development within the Latin American market, seeking to increase the commercial networks and competitiveness of each of our clients, offering our network of information, contacts and international experience.

**ENGINEERING / TECHNOLOGY / INDUSTRIAL**

Our team of technicians, engineers and supply chain specialists make sure to search and evaluate the existing and viable technological alternatives that are available worldwide, so that each client can choose the option that best suits the reality of their innovation or process, with a solid and consistent calculation basis. Additionally, our multidisciplinary team can collaborate in the search for sources of financing, promotion and investment.

We seek to add value in areas of energy, human health, medicine and biotechnology, for the empowerment of the industrial and agricultural sector, with an active environmental attitude, seeking solutions that harmonize with the environment with a circular vision of the economy.
