Type of institution (please select all that apply)	<i>Public</i>	<input type="checkbox"/>	<i>Private</i>	<input checked="" type="checkbox"/>	<i>Academy</i>

Short description of your institution/company:

Haldor Topsoe wants to be the global leader within carbon emission reduction technologies for the chemical and refining industries. By perfecting chemistry for a better world, we enable our customers to succeed in the transition towards renewable energy.

Purpose and vision: Perfecting chemistry for a better world.

Chemistry is behind almost any product or fuel that defines the way we live today, and it will be just as important in shaping the future. With our deep insight into chemistry, Topsoe has an important role to play in the transition. That is defined in our purpose:

Our strategic vision is: To be recognized as the global leader in carbon emission reduction technologies by 2024.

Reducing carbon emissions is vital for the success of the transition towards renewable energy and that goal will lead our company. This will make a huge positive difference for our customers, the climate, and the world.

Your institution provides (please select all that apply)	<i>products</i>	<input type="checkbox"/>	<i>services</i>	<input checked="" type="checkbox"/>
---	-----------------	--------------------------	-----------------	-------------------------------------

Short description of your relevant market, i.e. your relevant product/service and geographic market:

We are involved in shaping the solutions and new technologies that customers will base their business on in the future.

We supply more than 150 different catalysts and have the capability to design and manufacture custom catalysts for specific tasks.

We can provide a complete range of proprietary equipment, spare parts and consumables, designed and manufactured to work optimally.
 We offer a full range of technical services, backed by deep insight and decades of hands-on experience.
 Topsoe Academy™ provides a complete range of training courses, making our vast experience and scientific know-how available.
 ClearView™ is a connected services solution based on cloud-based analytics and expert support.
 We can help to mature your projects – from first idea to financial close and beyond.

Area(s) of activity (please select all that apply) in connection with Green H2

<i>Hydrogen and other products production</i>	X	<i>Renewable Energy</i>	X	<i>Transport</i>	X
<i>Logistic</i>		<i>Industrial</i>	X	<i>Finance</i>	
<i>Legal</i>		<i>Consulting</i>		<i>Risk Management</i>	

Expertise areas (please select all that apply)

<i>R&D</i>		<i>Technology transfer</i>		<i>Technology developer</i>	X
<i>Technology end-user</i>		<i>Technology supplier</i>	X	<i>Investor</i>	

Main technological capacities and facilities

We develop studies and technologies for different type of technologies in our facilities in Denmark, and also develop conceptual and basic engineering.

About the partner(s) you are looking for

Where are you looking for a partner (please select all that apply):

<i>In Uruguay</i>		<i>Abroad</i>
