**Short description of your institution/company:**

Tax exemption for investment in Uruguay-COMAP Projects-Green Hydrogen. Since 2008 we have specialized in business development through the Investment Promotion Law in Uruguay-COMAP Projects. With extensive experience in all sectors of activity, to date we have advised more than 140 companies in 400 COMAP files, with an investment of more than USD 200 million.

We work under a methodology per project and we integrate with professionals from other areas to maximize the return of each project. We advise from the stage of the business plan, management of bank credits and obtaining tax exemptions and state subsidies.

The current investment promotion regime in Uruguay incorporates Green Hydrogen into the indicator matrix of COMAP Projects. The investments will obtain the maximum score for said indicator qualifying as "High-tech manufacturing". An interesting tax incentive for those companies that wish to develop industrial businesses around Green Hydrogen.
