Short description of your institution/company:

Berkes is one of Uruguay’s largest energy infrastructure engineering groups providing R & D, engineering, construction, infrastructure, installation, commissioning and O&M services. With 80+ years of expertise in the energy sector, Berkes has diversified and expanded its business into civil construction, industrial and electrical projects. Berkes Energy Division specializes in biomass technology and has successfully developed projects all over the world (Europe, Asia, and Latin America). With experienced teams with specialized knowledge, capable of analyzing each project, Berkes has positioned itself as one of the leading companies in the industry, providing fast response, high quality solutions and excellent service. In 2021, the group strategically acquired BWE (Burmeister & Wain Energy), a Danish boiler company to further expand its business in Europe, North America and Asia.
