Short description of your institution/company:

SIN Ingeniería is an engineering firm that contribute to the competitive and efficient development of the industrial sector, with a strong commitment in decentralizing the offer of specialized services required by the Uruguayan industry, providing a fast and close response to our customers.

SERVICES

The services provided go thought horizontally in all the phases of industrial project (Management, Design, Procurement, Construction, Commissioning, Startup, Operation and Maintenance) and vertically in all the disciplines (Civil, Mechanical, Electrical, Automation and Instrumentation).

MISSION

Provide engineering solutions, tailored to the needs of the client, that contribute to the competitive development of the industry, with highly concentrated focus on those that are consolidated in the north and center of the country.

VISION

Consolidate ourselves as a key tool for the development of the industry in the north and center of the country, being a reliable reference for our clients.
