Short description of your institution/company:

(only the first 150 words will be published)

LSQA is an organization that provides access to all knowledge in the certification of products, processes, and integration of management systems, with a strong international reputation and extensive experience in various sectors, as well as specialized services focused on innovation. From a pragmatic vision, LSQA provides the necessary guidance to address the new requirements and trends reflected in the daily activities of organizations, to successfully compete in the global market.

We are dedicated to business transformation, aimed at systematically improving organizational performance through the incorporation of high added value in training and certification based on internationally recognized management systems.

We lead by building a network of knowledge management and international certification, with recognition of our technical competence in markets relevant to our clients operating in over 40 countries, which provides us with a strong and extensive professional network.

We are inspired to be part of this directory of companies as we believe we can contribute to the objectives of the green hydrogen roadmap in Uruguay by providing all the knowledge in certification matters and access to relevant information.
